

## EE Mobile Business Caller ID Terms and Conditions

1. EE Business Caller ID (the service feature) is a service feature provided as part of your EE Mobile Service.
2. The service feature includes screening technology that will automatically display the business name on incoming calls from a business registered with this service. All other calls will ring and be received as normal.
3. These terms and conditions are in addition to your main terms and conditions for your EE Mobile Service (your [EE Network Terms & Conditions](#)). You should read both sets of terms and conditions together.
4. Where these terms and conditions conflict with your EE Mobile Terms & Conditions, what we say in our EE Mobile Terms & Conditions will take priority.
5. The service feature is available as part of your EE Mobile service. If there's a charge for the service feature, we will always agree this with you before we turn it on.
6. The service feature is only available on 4G/5G connection.
7. You do not need to do anything to get this service feature, it will be automatically added to your EE Mobile account and cannot be removed.
